## Reporting Supplemental Job Displacement Benefits (SJDB)

**Date: February 29, 2016**

---

In an effort to reduce the percentage of transaction rejected (TR) and transaction accepted with errors (TE) acknowledgments, and to improve the overall quality and completeness of First Reports of Injury and Subsequent Reports of Injury (FROI/SROI) data, the Workers' Compensation Information System (WCIS) periodically issues training bulletins outlining some of the most common errors and procedural oversights. An [archive](#) of the bulletins is available.

---

**Supplemental Job Displacement Benefits must be reported using DN 95 with BTC 390.**

The [California EDI Implementation Guide for FROI/SROI version 3.0](#) (Section N, page 94) requires that trading partners submit the Paid to Date/Reduced Earnings/Recoveries Code (DN 95) with the Benefit Type Code (BTC) 390 for all Supplemental Job Displacement Benefits (SJDB). The amount paid for SJDB is reported under the Paid to Date/Reduced Earnings/Recoveries Amount (DN 96).

For more general information on SJDB, please visit the Division of Workers' Compensation [SJDB page](#).

Trading Partners who would like assistance with reporting SJDB may contact their designated trading partner contact.
